Wong Joe Xien

WEB DEVELOPER

nialljx@gmail.com • Singapore

PROFILE

I’m a web developer with three years of experience designing, building, and maintaining web applications. My core work is in PHP and Laravel on the back end, paired with JavaScript and Vue.js on the front end. I enjoy turning requirements into features that are reliable for users and easy for teams to maintain. I’m looking for opportunities where I can keep growing across the full stack and contribute to products that matter.

SKILLS

PHP | JS | HTML | CSS | Laravel | VUE JS | Agentic AI

EXPERIENCE

Application Programmer

July 2024 - Present

GS Fintech

Web developer with 3 years of experience building and maintaining web applications. Proficient in PHP and JavaScript, with hands-on experience in Laravel for back-end development and Vue.js for interactive front-end interfaces. Comfortable working across the full stack, from database-backed server logic to responsive user-facing features.

EDUCATION

2023 **Degree**

Teknical Malayisa Melaka (UTEM)
